"Given the Criterion-level Blu-ray and DVD treatment by Cult epics is an undoubtedly important moment in genre history."

"Morbidly fascinating stuff!

"Think of **Angst** as being like an extended version of the home invasion scene of *Clockwork Orange* mixed with the approach of *Henry: Portrait of a Serial Killer*."

"Angst was considered more extreme than the slew of the cannibal and zombie movies also playing in theaters at the time"

"This is as close as you're likely to get to a real serial killer and survive"

<http://www.reelingreviews.com/angst.htm>

"As a whole, *Angst* is undoubtedly one of the most unnerving, yet strangely mesmerizing genre gems out there."

<http://deathbydialogue.weebly.com/reviews/review-angst-1983>

"This film reminded me of HENRY, PORTRAIT OF A SERIAL KILLER, but ANGST was the better of the two films in my opinion"

"This is the definitive edition of a solely under-appreciated masterpiece of disconcerting horror"

<http://www.cinesploitation.com/angst-aka-schizophrenia-1983-blu-ray-review/>

"He is not superhuman, like Jason, not refined or gifted, like Hannibal Lecter, nor is he a scowling, shadowy presence like Henry. One thing that makes **Angst** more unsettling is that, on the surface, there is absolutely no distinction between this vicious madman and his unfortunate victims."

"The best psycho-killer movie, it's going to be rediscovered everywhere in the next few years" –Gaspar Noe, Cannes 2015

<http://altcitizen.com/throwback-review-angst-1983/>

"Roger Ebert famously observed that, "Art is the closest we can come to understanding how a stranger really feels." If that's the case, *Angst* might be the deepest that cinema has ever plunged into the mind of a psychopath.

Angst is a testament to the visceral power of cinema, with all the dangers and beauty that entails."

"If you believe you have seen anything like this movie. I know I haven't. Henry comes close. Funny Games comes close but they both fall short."
